ABOUT ME

Motivated IT Support Specialist and aspiring Web Developer with hands-on experience in troubleshooting, system maintenance, and front-end development. Skilled in delivering technical support, creating user-friendly websites, and conducting market research for digital solutions.

EXPERIENCE

IT support

2024 - Now

Kong Pisei , 3 Street , Kompong Speu

- User Support and Troubleshooting: This is about directly helping people. It involves managing a help desk, solving problems with software and hardware, assisting users remotely or in person, and managing user accounts and access.
- Network and Infrastructure: This focuses on the technical backbone. It includes troubleshooting network issues, maintaining systems (updates, backups).
- Documentation and Training: This involves creating resources and teaching others. Key tasks include writing technical guides and FAQs, training new and current employees on IT systems, and keeping detailed records of support interactions.

VidDev (My little website)

2024 - Now

- Designed and developed a personal website to practice and showcase front-end skills using HTML, CSS, and JavaScript.
- Implemented a responsive layout to ensure compatibility across desktops, tablets, and mobile devices.
- Integrated basic interactivity and UI components to enhance user experience.
- Conducted market research and feasibility studies on digital products and services to understand user needs.
- Applied project management skills by planning, testing, and improving the website based on feedback.
